

Actor: Admin	System: Admin System
	0. The system displays the input boxes for the admin to <ul style="list-style-type: none"> a) Add a new user b) Remove a user c) Edit user details
1. The admin <ul style="list-style-type: none"> a. Adds a new user b. Removes a user c. Edits user details if it was originally incorrect. 	2. The system <ul style="list-style-type: none"> a) Will add a new user to the database b) Remove a user that is no longer part of the university c) Edit user details and update the database
3. The admin will update the database if need and then log out of the system.	4. The system will generate a report every week that displays the number of active users for the admin to check.

The reason why the system generates reports should be added to the functional requirements to clarify
